messe frankfurt

Great challenges, great opportunities.

## Environmental technologies: solutions for today and tomorrow.

Decreasing reserves of fossil fuels, rising global energy requirements, access to clean water, waste disposal and recycling – the challenges of the future are formidable. Currently across the globe 780 million people have no supply of drinking water, around 3.5 million tonnes of waste are produced every day and energy consumption is due to increase by around one-third by 2035. In addition, global air pollution, which is already leading to permanent smog in many large cities in the world, needs to be urgently reduced. The faster the world's population grows and the higher the standard of living, the more urgent it becomes to find solutions to these problems.

At the same time, the worldwide opportunities that these markets and sectors offer are also growing. Renewable energies and energy efficiency, water treatment and hygiene systems, sustainable waste and resource management – the future requires intelligent technologies and innovative companies that can develop, market and install appropriate solutions.

# Top events made by Messe Frankfurt.

**Leading events by the leading specialist.** More than 130 trade fairs at around 40 locations, including 70 in the technology sector alone. Messe Frankfurt is the virtually undisputed leader in globally successful trade fair concepts for future-oriented industries. With eight trade fairs in three countries the environmental technology sector is a major component of our portfolio – and an important field of business that we are continuing to develop.

**Experience and know-how.** The trade fairs and events of Messe Frankfurt are leading marketplaces for environmental technology innovations and systems. As a specialist in the running of leading international trade fairs, we not only have the necessary organisational know-how. We also understand the special challenges in the individual sectors and growth markets and are always a step ahead of the latest developments.

## waste & recycling expo CANADA

---

### Waste & Recycling Expo Canada

Canada's ONLY event serving the waste, recycling and public works market

✂ [www.wrec.messefrankfurt.com](http://www.wrec.messefrankfurt.com)

---

📅 The must-visit event for the entire industry and its business partners – Waste & Recycling Expo Canada is the only Canadian trade show to focus on the themes of waste, recycling and public services. The fair works closely with leading industry associations, including the Ontario Waste Management Association, which organises the concurrent Canadian Waste to Resource Conference

---

#### 🏷️ **Product groups:**

Composting Systems/Components, Construction & Demolition Waste/Scrap Recycling, Incineration/Gasification/Thermal Technologies, Infrastructure Redevelopment/Public Works, Landfill Operations/Systems, MRFs/Transfer Stations/Storage/Containers, Recycling Equipment/Services, Trucks & Transportation, Equipment/Heavy Equipment, Waste Treatment/Disposal, Software/Technology/Education

---

## municipal equipment expo CANADA

---

### Municipal Equipment Expo Canada

The platform for the public works markets

✂ [www.meec.messefrankfurt.com](http://www.meec.messefrankfurt.com)

---

📅 The Municipal Equipment Expo is a platform for the public works markets. From 2015 onwards the show will be co-located with Waste & Recycling Expo Canada – Canada's only trade show serving the waste, recycling and public works markets. Municipal Equipment Expo will be one of the principal events in Canada for the whole industry.

---

#### 🏷️ **Product groups:**

Municipal/Construction Equipment, Traffic & Road Safety/Control, First Responders Equipment, Supplies/services, Water/Wastewater/Infrastructure/Utilities/Asset Management, Sustainability/Green Buildings/Environment

---

# building solar

CHINA

---

## Building Solar China

Capture solar building opportunities in China

📅 Annually in China

📍 [www.building-solar-china.messefrankfurt.com](http://www.building-solar-china.messefrankfurt.com)

---

📖 Since the Chinese government started to promote the decentralised generation of energy, the demand for solar technology has been steadily growing. Building Solar China was held for the first time in 2012. Comprising an industry conference and exhibition, the event presents the latest technological developments and future trends in the field of integrated solar building technology. Building Solar China is a member of the “Intelligent Green Building” exhibition platform and takes place concurrently with Messe Frankfurt’s building technology fairs in China.

---

### 🏠 Product groups:

Solar Building Energy Infrastructure, Solar Building Smart Solutions, Solar Building Services, Government, Associations, Research and Media

---

Water Expo China  
中国水博览会

---

## Water Expo China

China’s First Water Business Exhibition

📅 Annually in Beijing, China

📍 [www.waterexpo-china.messefrankfurt.com](http://www.waterexpo-china.messefrankfurt.com)

---

📖 Launched in 2008, Water Expo China is approved by the Ministry of Commerce and supported by the Ministry of Water Resources of the People’s Republic of China. It is a comprehensive trade platform that is jointly organised by Messe Frankfurt (Shanghai) Co. Ltd. and the Chinese Hydraulic Engineering Society. The fair covers the entire business chain of the water industry and showcases cutting-edge technologies, solutions and new materials. The China International Water Business Summit is a highly respected forum that is held concurrently with the fair and invites top-notch academicians to share insights into trending topics on water security and government policies in China.

---

### 🏠 Product groups:

Water Conservation, Irrigation and Drainage, Water Service Providers and Water Treatment, Hydrology and Water Resources, Water Information and Automation, Sluices and Hoists, Emergency Flood Prevention, Construction Machinery, Water Diversion, New Technologies and Materials

---

---

### Eco Expo Asia

International Trade Fair on Environmental Protection

📅 Annually in Hong Kong

🌐 [www.eco-expo-asia.messefrankfurt.com](http://www.eco-expo-asia.messefrankfurt.com)

---

📖 Eco Expo Asia is a unique platform for international innovations from the entire spectrum of environmental technologies and has developed close contacts with government representatives. Established in 2006, Eco Expo Asia is jointly organised by Messe Frankfurt and the Hong Kong Trade Development Council, and is co-organised by the Environment Bureau of the Hong Kong Special Administrative Region Government. It therefore offers outstanding opportunities to participants to benefit from rapidly growing markets in Asia, particularly China. The fair showcases the latest green solutions to combat challenges, such as those outlined in the 2015 Paris Agreement, that are brought on by climate change.

---

#### 🏷️ **Product groups:**

Air Quality, Eco-friendly Product, Energy Efficiency & Energy, Green Building Solution & Service, Green Transportation, Testing, Inspection & Certification, Waste Management & Recycling, Water Quality, Control, Measuring and Laboratory Technology, Environmental Project Solution & Service, Environmental Protection Service & Research

---

## watertech

INDIA

## cleantech

INDIA

## wastetech

INDIA

---

### Watertech India

National Summit on Water, Waste Water Treatment, Solid Waste Management & Solar Energy

📅 Annually in New Delhi, India

🌐 [www.watertech-india.messefrankfurt.com](http://www.watertech-india.messefrankfurt.com)

---

📖 Watertech India together with its concurrent sister events Wastetech India and Cleantech India covers fundamental areas of environmental technology and is of interest to a wide range of business visitors. The event will feature three parallel focused conference tracks on “Water and Waste Water/Effluent Treatment”, “Solid Waste Management” and “Solar Energy” along with an exposition showcasing cost-effective solutions by selected technology pioneer companies.

---

#### 🏷️ **Attendee profile:**

Industrial and Municipal end-users of Waste Water Treatment, Solid Waste Management, Technology Solution Providers, Engineering/EPC Services, Government, Regulatory, NGO's, Research Institutes, Market Research, Consultants, Press, Media

---

Standardised and manufactured  
in accordance with the eco-label.  
Made entirely from recycled paper.
